

Bhavishya Dwar - Placements and Recommendations System

Description-

There is a requirement for good and qualified people for jobs in IT industry . Colleges are always looking for good industries for their students.

The main focus of this project is to

1. To create a platform for the students to register and submit their updated profiles
2. Industries will submit their vacant positions as an employee or an intern
3. Based on the recommendation system the aspirant students to get their desired job notification announcements and also internship announcements
4. To create a recommendation system for the aspirant students and industries in terms of jobs and internship.
