

University Event Management System

Description-

Create a portal where Event Management Club will initiate the event by deciding on the following points:

- List of various committees (including members)
- List of involved Bureaus or cells or committees.

Required features in the portal would be as follows -

- Booking of meeting room/auditorium
- Communication to all the bureaus/members regarding meetings through email alerts
- A separate interface to intimate canteen for refreshment/Lunch/dinner arrangements
- An interface of this system for
 - Report Generation
 - Check Activity Log

Tech Stack - MERN

Process Flow
